Weekly Report 9 (7/14/05)

This week the platform for my second robot is cut and assembled. I have programmed the second robot to obstacles avoid using sonar, SR04. I also getting data from the pyro sensor but haven't decide on how to program it yet. For the helicopter robot, I have try larger window for moving average. I think I have to adjust the PID so that it doesn't swing so much when the sensor move just a little bit.
